Agenda item 10.1.3.1

Revision of B 6 to implement Resolution 2018/21

Resolution 2018/21

Resolution no. 2018/21

(agenda item 11.2.4)

The Committee,

Noting the recommendation of the OIML-CS Management Committee,

Noting the comments made by its members,

Decides that when an OIML Recommendation that is included in the OIML-CS is revised, the relevant Project Group shall develop a comparison table (“gap analysis”),

Decides that new and revised OIML Recommendations that are to be included in the OIML-CS shall include separate type evaluation report and test report formats, and

Approves as a new project under the responsibility of the BIML, the revision of B 6 *Directives for OIML technical work*, to be conducted as specified in the project proposal provided in Addendum 11.2.4 to the working document for this meeting.

Overview of changes to B 6-1 and B 6-2

- Implementation of:
 - Part 3 (Test Report Format)
 - Part 4 (Type Evaluation Report Format)
 - Comparison Table (“gap analysis”)
- Opportunity taken to also:
 - make editorial improvements to ensure consistency
 - improve/clarify some wording
 - align B 6-1 and B 6-2 with current practice
 - correct some omissions, e.g. new subclauses 4.8 and 4.9
 - new Annex D to incorporate Resolution 2017/17
- NO technical changes relating to the operation of TCs/SCs/PGs or the development and approval of technical publications

Templates for Parts 3 and 4

- In addition to the changes to B 6-1 and B 6-2, templates have been developed for Part 3 (Test Report Format) and Part 4 (Type Evaluation Report Format)
- Templates can be used by Project Groups when developing new or revising existing Recommendations

AMD 10.1.3.1

B 6-1 *Directives for OIML technical work* contains model forms in Annex C as follows:

- Annex C.1 Proposal for a new Technical Committee or Subcommittee (5.2)
- Annex C.2 Proposal for a new project (5.4)
- Annex C.3 Comments template (5.10.2.3)

These model forms may be subject to periodic editorial amendments. To avoid the need to revise B 6-1 each time a form is amended, it is proposed that

- i) a note is added after each form in Annex C.1 and Annex C.2, and
- ii) the existing note in Annex C.3 is replaced,

as follows:

Note: This form may be subject to periodic editorial amendments by the BIML. Therefore, the latest version, which can be downloaded from the OIML website at <https://www.oiml.org/en/myaccess/technical-work/templates>, shall be used.”

It is recommended that the CIML approves the inclusion of these notes in the FDB of B 6-1 presented in 10.1.3.1.
